### **DIRECT TESTIMONY ON REHEARING**

OF

**BILL L. VOSS** 

# FINANCIAL ANALYSIS DIVISION ILLINOIS COMMERCE COMMISSION

**ILLINOIS UNIVERSAL SERVICE FUND** 

Docket Nos. 00-0233 and 00-0335 (Consolidated)

December 6, 2001

### TABLE OF CONTENTS

Witness Identification	1
Description of Testimony	1
Summary of Total Fund Amounts for the IUSF—Schedule 2.01	3
IUSF without the Affordable Rate Adjustment—Schedule 2.02	5
Affordable Rate of \$20.39—Schedules 2.03 through 2.06	6
Affordable Rate of \$22.23—Schedules 2.07 through 2.10	14
Affordable Rates of \$24.00 and \$27.00—Schedules 2.11 through 2.14	19
Conclusion	23

### 1 WITNESS IDENTIFICATION

- 2 Q. Please state your name and business address.
- 3 A. My name is Bill L. Voss. My business address is 527 East Capitol Avenue,
- 4 Springfield, Illinois 62701.
- 5 Q. By whom are you employed and in what capacity?
- 6 A. I am employed by the Illinois Commerce Commission as a Technical Assistant to
- 7 the Director of the Financial Analysis Division.
- 8 Q. Are you the same Bill L. Voss who filed testimony in this proceeding on May 31,
- 9 2001, on behalf of the Staff of the Illinois Commerce Commission ("Staff")?
- 10 A. Yes, I am.

### 11 DESCRIPTION OF TESTIMONY

- 12 Q. What is the purpose of your Direct Testimony on Rehearing?
- 13 A. The purpose of my Direct Testimony on Rehearing is to present the Staff-
- calculated amounts of Illinois Universal Service Fund ("IUSF") support for the

15		various funding sc	enarios discussed by Staff witness Staranczak in ICC Staff
16		Exhibit 1.0 on Rehe	earing.
17	Q.	Are you sponsoring	any schedules as part of ICC Staff Exhibit 2.0 on Rehearing?
18	A.	Yes. I am sponsori	ing the following schedules:
19		Schedule 2.01	Summary of Total Fund Amount for the IUSF
20		Schedule 2.02	IUSF without the Affordable Rate Adjustment
21		Schedule 2.03	IUSF with a \$20.39 Affordable Rate and All Lines Subsidized
22 23		Schedule 2.04	IUSF with a \$20.39 Affordable Rate and a Percentage of Lines Subsidized
24 25		Schedule 2.05	IUSF First-Year Phase-In with a \$20.39 Affordable Rate and All Lines Subsidized
26 27		Schedule 2.06	IUSF First-Year Phase-In with a \$20.39 Affordable Rate and a Percentage of Lines Subsidized
28		Schedule 2.07	IUSF with a \$22.23 Affordable Rate and All Lines Subsidized
29 30		Schedule 2.08	IUSF with a \$22.23 Affordable Rate and a Percentage of Lines Subsidized
31 32		Schedule 2.09	IUSF First-Year Phase-In with a \$22.23 Affordable Rate and All Lines Subsidized
33 34		Schedule 2.10	IUSF First-Year Phase-In with a \$22.23 Affordable Rate and a Percentage of Lines Subsidized
35		Schedule 2.11	IUSF with \$24/\$27 Affordable Rates and All Lines Subsidized

## Docket Nos. 00-0233 and 00-0335 (Consolidated) ICC Staff Exhibit 2.0 on Rehearing

36 37		Schedule 2.12	IUSF with \$24/\$27 Affordable Rates and a Percentage of Lines Subsidized
38 39		Schedule 2.13	IUSF First-Year Phase-In with \$24/\$27 Affordable Rates and All Lines Subsidized
40 41		Schedule 2.14	IUSF First-Year Phase-In with \$24/\$27 Affordable Rates and a Percentage of Lines Subsidized
42	Q.	Please describe the	e organization of your Direct Testimony on Rehearing.
43	A.	In narrative testim	ony, I present a discussion of the 14 schedules that I am
44		sponsoring as part	of my testimony. My schedules follow the narrative testimony.
45	<u>Sumr</u>	MARY OF TOTAL FU	ND AMOUNTS FOR THE IUSF—SCHEDULE 2.01
46	Q.	Please describe So	chedule 2.01, entitled "Summary of Total Fund Amounts for the
47			
		IUSF."	
48	A.		sents a summary of the total fund amounts of the IUSF under

49	A.	Schedule 2.01 pres 18 different funding scenario. Column	g scenarios. Column a presents a description of each funding
49 50	A.	Schedule 2.01 pres 18 different funding scenario. Column	b presents the total fund amount for each funding scenario.
49 50 51	A.	Schedule 2.01 pres 18 different funding scenario. Column Column c identifies	b presents the total fund amount for each funding scenario.
49 50 51	A.	Schedule 2.01 pres 18 different funding scenario. Column Column c identifies 2.14.	b presents the total fund amount for each funding scenario.

## Docket Nos. 00-0233 and 00-0335 (Consolidated) ICC Staff Exhibit 2.0 on Rehearing

55		•	\$20.39,
56		•	\$22.23, and
57		•	\$24.00 for residential lines and \$27.00 for business lines.
58		Sche	dule 2.01 presents six funding scenarios for each affordable rate:
59		•	All Lines Subsidized,
60		•	Primary Residential Lines and Single-Line Business Lines Subsidized,
61		•	Primary Residential Lines, Single-Line Business Lines, and First Lines for
62			Multi-Line Businesses Subsidized,
63		•	First-Year Phase-In with All Lines Subsidized,
64		•	First-Year Phase-In with Primary Residential Lines and Single-Line
65			Business Lines Subsidized, and
66		•	First-Year Phase-In with Primary Residential Lines, Single-Line Business
67			Lines, and First Lines for Multi-Line Businesses Subsidized.
68	Q.	Are y	ou recommending a specific funding scenario?
69	A.	No.	The purpose of this testimony is to present the amounts of Illinois Universal
70		Servi	ce Fund support under the various funding scenarios discussed by Staff
71		witne	ess Staranczak for each of the 39 telecommunications carriers that had
72		reque	ested IUSF support.

### 73 IUSF WITHOUT THE AFFORDABLE RATE ADJUSTMENT—SCHEDULE 2.02

Q. Please describe Schedule 2.02, entitled "IUSF without the Affordable Rate Adjustment."

A. Schedule 2.02 presents the amount of IUSF support for each of the 39 telecommunications carriers before any affordable rate adjustment. The amounts presented in column d are used in subsequent schedules.

79

80

81

82

83

84

85

86

87

88

89

The following information is presented on Schedule 2.02. Column a identifies the telecommunications carrier. Column b lists the amounts of IUSF support requested by the Illinois Independent Telephone Association ("IITA") in column n of Attachment 4 to IITA Exhibit 2 on Rehearing.<sup>1</sup> Column c presents the reductions to the IITA requested amount attributable to the Staff accounting adjustments; the Commission accepted each of the reductions in column c in its Second Interim Order for this proceeding, dated September 18, 2001. All of the Staff accounting adjustments in column c are also included in column o of Attachment 4 to IITA Exhibit 2 on Rehearing,<sup>2</sup> with the exception of the \$358 accounting adjustment for Alhambra. The Commission accepted the \$358 adjustment for Alhambra on pages 53 and 55 of the Second Interim Order.

<sup>&</sup>lt;sup>1</sup> IITA also presents these amounts in column n of Attachment 3 to IITA Exhibit 2 on Rehearing. The IITA's Attachment 3 addresses an affordable rate of \$22.23; the IITA's Attachment 4 addresses an affordable rate of \$20.39.

<sup>&</sup>lt;sup>2</sup> IITA also presents the amounts of the Staff accounting adjustments in column o of Attachment 3 to IITA Exhibit 2 on Rehearing.

Column d presents the amounts of IUSF support after the application of the Staff accounting adjustments. The schedules that follow rely on these column d amounts.

### Affordable Rate of \$20.39—Schedules 2.03 through 2.06

- Q. Please describe Schedule 2.03, entitled "IUSF with a \$20.39 Affordable Rate and
   All Lines Subsidized."
- Schedule 2.03 presents the amounts of IUSF support based upon an affordable Α. 96 rate of \$20.39 with the subsidization of all lines. Column b lists the residential 97 rate for each of the telecommunications carriers as provided in column a of 98 Attachment 4 to IITA Exhibit 2 on Rehearing. Column c presents the residential 99 rate differential between the amount listed in column b and an affordable rate of 100 \$20.39. Column d lists the number of total residential access lines provided on 101 Attachments 5 and 4 to IITA Exhibit 2 on Rehearing.<sup>3</sup> Column e calculates the 102 monthly residential revenue differential by multiplying the residential rate 103 differential in column c by the number of total residential access lines in column 104 If the multiplication calculation produces a negative amount, column e 105 displays a zero amount ("-"). Column f lists the business rate for each of the 106 telecommunications carriers as provided in column b of Attachment 4 to IITA 107

<sup>&</sup>lt;sup>3</sup> See column d of Attachment 5 to IITA Exhibit 2 on Rehearing and column c of Attachment 4 to IITA Exhibit 2 on Rehearing.

Exhibit 2 on Rehearing. Column g presents the business rate differential between the amount listed in column f and an affordable rate of \$20.39. Column h lists the number of total business access lines provided on Attachments 5 and 4 to IITA Exhibit 2 on Rehearing.<sup>4</sup> Column i calculates the monthly business revenue differential by multiplying the business rate differential in column g by the number of total business access lines in column h. If the multiplication calculation produces a negative amount, column i displays a zero amount. Column j presents the total monthly revenue differential resulting from the summation of columns e and i. Column k calculates the total annualized revenue differential by multiplying the total monthly revenue differential in column j by 12. Column I lists the amount of IUSF funding support before any affordable rate adjustment calculated on Schedule 2.02 in column d. Column m presents the amount of the IUSF with an affordable rate of \$20.39 and with the subsidization of all lines: the amount in column m is the result from the subtraction of column k from column I. If the subtraction in column m creates a negative amount, column m displays a zero amount.

Please note that the \$9,858,975 total amount of the IUSF with an affordable rate of \$20.39 and with all lines subsidized, at line 40 in column m of Schedule 2.03, agrees with the total amount calculated in column p on Attachment 4 to IITA

108

109

110

<sup>&</sup>lt;sup>4</sup> See column h of Attachment 5 to IITA Exhibit 2 on Rehearing and column d of Attachment 4 to IITA Exhibit 2 on Rehearing.

Exhibit 2 on Rehearing. The column m amounts for each of the telecommunications carriers listed on Schedule 2.03 agree with the amounts in column p on the IITA Attachment 4 after the IITA's column p amounts are rounded to the nearest dollar.

- Q. In your previous answer, you discussed the number of business access lines provided by the IITA on Attachments 4 and 5 to IITA Exhibit 2 on Rehearing. Do both IITA Attachments agree on the number of business access lines?
- 134 A. No. There is a discrepancy regarding number of business access lines for
  135 Tonica. The IITA's Attachment 4 shows 89 business access lines for Tonica in
  136 column d; the IITA's Attachment 5 shows 126 business access lines for Tonica
  137 on line 36 in column d.<sup>5</sup> For Schedule 2.03, as well as my subsequent
  138 schedules, I use 126 for the number of Tonica's business access lines.
- 139 Q. Please describe Schedule 2.04, entitled "IUSF with a \$20.39 Affordable Rate and a Percentage of Lines Subsidized."
- A. Schedule 2.04 presents IUSF amounts based upon two subsidization methodologies: the subsidization of only primary residential lines and single-line business lines and the subsidization of primary residential lines, single-line business lines, and first lines of multi-line businesses. While the Commission's

8

127

128

129

130

131

132

<sup>&</sup>lt;sup>5</sup> Attachment 3 to IITA Exhibit 2 on Rehearing also shows 89 business access lines for Tonica.

Second Interim Order, on pages 4 and 5, limited IUSF support to primary residential lines and single-line business lines, I have also prepared a second subsidization methodology that provides IUSF support to primary residential lines, single-line business lines, and first lines of multi-line businesses.

163

164

165

Schedule 2.04 presents the calculation of IUSF amounts for an affordable rate of \$20.39 with the two subsidization methodologies previously described. Column b lists the amount of IUSF support with a \$20.39 affordable rate for each of the telecommunications carriers; each column b amount is calculated on Schedule 2.03 in column m. Columns c, d, e, and f list the number of total access lines, primary residential lines, single-line business lines, and first lines for multi-line businesses, respectively; these amounts were provided by the IITA in columns j, b, e, and f, respectively, on Attachment 5 to IITA Exhibit 2. Column g presents the total of primary residential lines and single-line business lines; column q is the summation of columns d and e. Column h calculates the percentage of the total of primary residential lines and single-line business lines to total access lines; column h shows the percentage result of dividing column g by column c. Column i presents the amount of the IUSF with an affordable rate of \$20.39 subsidizing only primary residential lines and single-line business lines. Column i is the result of multiplying the amount of IUSF support in column b by the percentage in column h. Column j presents the total of primary residential lines, single-line business lines, and first lines of multi-line businesses; column i is the summation

of columns d, e, and f. Column k calculates the percentage of the total of primary residential lines, single-line business lines, and first lines of multi-line businesses to total access lines; column k shows the percentage result of dividing column j by column c. Column I presents the amount of the IUSF with an affordable rate of \$20.39 subsidizing primary residential lines, single-line business lines, and the first line of multi-line businesses. Column I is the result of multiplying the amount of IUSF support in column b by the percentage in column k.

173 Q. Please describe Schedule 2.05, entitled "IUSF First-Year Phase-In with a \$20.39 174 Affordable Rate and All Lines Subsidized."

166

167

168

169

170

171

172

180

181

182

183

184

185

A. Schedule 2.05 presents the amounts of IUSF support for the first year of a threeyear phase-in of an affordable rate of \$20.39 with the subsidization of all lines. Staff witness Staranczak testifies that three years is the appropriate length of a phase-in period for an affordable rate of \$20.39. Schedule 2.05 is a two-page schedule.

Page 2 of Schedule 2.05 calculates the first-year phase-in increases for monthly residential and business rates. Column b lists the residential rate for each of the telecommunications carriers as provided in column a of Attachment 4 to IITA Exhibit 2 on Rehearing. Column c presents the residential rate differential between the amount listed in column b and an affordable rate of \$20.39. Column d calculates the amount of the first year of the three-year phase-in of the

residential increase using the criteria discussed by Staff witness Staranczak. If the amount in column c is greater than \$6.00, the amount in column d is the result of dividing column c by three. If the amount in column c is less than or equal to \$6.00 and more than or equal to \$2.00, the amount in column d is \$2.00. If the amount in column c is less than \$2.00 and more than zero, the amount in column d is the amount in column c. If the amount in column c is less than or equal to zero, the amount in column d is a zero amount. Column e lists the business rate for each of the telecommunications carriers as provided in column b of Attachment 4 to IITA Exhibit 2 on Rehearing. Column f presents the business rate differential between the amount listed in column e and an affordable rate of \$20.39. Column g calculates the amount of the first year of the three-year phase-in of the business increase. Column g calculates this amount using the same criteria just described for column d.

The calculation of the amounts of IUSF support for the first year of a three-year phase-in of an affordable rate of \$20.39 with the subsidization of all lines continues on page 1 of Schedule 2.05. Column b lists the amount of the first year of the three-year phase-in of the residential increase calculated on page 2 in column d. Column c lists the number of total residential access lines provided on Attachments 5 and 4 to IITA Exhibit 2 on Rehearing.<sup>6</sup> Column d calculates the

\_

<sup>&</sup>lt;sup>6</sup> See column d of Attachment 5 to IITA Exhibit 2 on Rehearing and column c of Attachment 4 to IITA Exhibit 2 on Rehearing.

monthly residential revenue differential by multiplying the phase-in residential increase in column b by the number of total residential access lines in column c. Column e lists the amount of the first year of the three-year phase-in of the business increase calculated on page 2 in column g. Column f lists the number of total business access lines provided on Attachments 5 and 4 to IITA Exhibit 2 on Rehearing. Column g calculates the monthly business revenue differential by multiplying the phase-in business increase in column e by the number of total residential access lines in column f. Column h presents the total monthly revenue differential resulting from the summation of columns d and g. Column i calculates the total annualized revenue differential by multiplying the total monthly revenue differential in column h by 12. Column i lists the amount of IUSF funding support before any affordable rate adjustment calculated on Schedule 2.02 in column d. Column k presents the amount of the IUSF for the first-year phase-in with an affordable rate of \$20.39 and with the subsidization of all lines; the amount in column k is the result from the subtraction of column i from column j. If the subtraction in column k creates a negative amount, column k displays a zero amount.

Q. Please describe Schedule 2.06, entitled "IUSF First-Year Phase-In with a \$20.39
Affordable Rate and a Percentage of Lines Subsidized."

<sup>&</sup>lt;sup>7</sup> See column h of Attachment 5 to IITA Exhibit 2 on Rehearing and column d of Attachment 4 to IITA Exhibit 2 on Rehearing.

Α. Schedule 2.06 presents IUSF amounts for the first year of a three-year phase-in of an affordable rate of \$20.39 with the two subsidization methodologies previously described. Column b lists the amount of IUSF for the first year of a three-vear phase-in of a \$20.39 affordable rate for each of the telecommunications carriers; each column b amount is calculated on page 1 of Schedule 2.05 in column k. Columns c, d, e, and f list the number of total access lines, primary residential lines, single-line business lines, and first lines for multiline businesses, respectively; these amounts were provided by the IITA in columns j, b, e, and f, respectively, on Attachment 5 to IITA Exhibit 2 on Rehearing. Column g presents the total of primary residential lines and singleline business lines; column q is the summation of columns d and e. Column h calculates the percentage of the total of primary residential lines and single-line business lines to total access lines; column h shows the percentage result of dividing column g by column c. Column i presents the amount of the IUSF for the first year of a three-year phase-in of an affordable rate of \$20.39 subsidizing only primary residential lines and single-line business lines. Column i is the result of multiplying the amount of IUSF support in column b by the percentage in column h. Column j presents the total of primary residential lines, single-line business lines, and first lines of multi-line businesses; column j is the summation of columns d, e, and f. Column k calculates the percentage of the total of primary residential lines, single-line business lines, and first lines of multi-line businesses to total access lines; column k shows the percentage result of dividing column i

by column c. Column I presents the amount of the IUSF for the first year of a three-year phase-in of an affordable rate of \$20.39 subsidizing primary residential lines, single-line business lines, and the first line of multi-line businesses. Column I is the result of multiplying the amount of IUSF support in column b by the percentage in column k.

### AFFORDABLE RATE OF \$22.23—SCHEDULES 2.07 THROUGH 2.10

246

247

248

249

250

- Q. Are Schedules 2.07 through 2.10 similar to Schedules 2.03 through 2.06?
- 253 A. Yes. Schedules 2.07 through 2.10 are very similar to Schedules 2.03 through 2.06, respectively. Schedules 2.03 through 2.06 provide IUSF amounts for an affordable rate of \$20.39; Schedules 2.07 through 2.10 provide IUSF amounts for an affordable rate of \$22.23. My discussion of Schedules 2.07 through 2.10 addresses their differences from Schedules 2.03 through 2.06.
- Q. Please describe Schedule 2.07, entitled "IUSF with a \$22.23 Affordable Rate and All Lines Subsidized."
- A. Schedule 2.07 presents the amounts of IUSF support based upon an affordable rate of \$22.23 with the subsidization of all lines. Column b lists the residential rate for each of the telecommunications carriers as provided in column a of Attachment 3 to IITA Exhibit 2 on Rehearing. Column c presents the residential

rate differential between the amount listed in column b and an affordable rate of \$22.23. Column d lists the number of total residential access lines provided on Attachments 5 and 3 to IITA Exhibit 2 on Rehearing. Column f lists the business rate for each of the telecommunications carriers as provided in column b of Attachment 3 to IITA Exhibit 2 on Rehearing. Column g presents the business rate differential between the amount listed in column f and an affordable rate of \$22.23. Column h lists the number of total business access lines provided on Attachments 5 and 3 to IITA Exhibit 2 on Rehearing. Column m presents the amount of the IUSF with an affordable rate of \$22.23 and with the subsidization of all lines; the amount in column m is the result from the subtraction of column k from column I.

Please note that the \$8,419,565 total amount of the IUSF with an affordable rate of \$22.23 and with all lines subsidized, at line 40 in column m of Schedule 2.07, differs by \$706 from the \$8,420,271 total amount calculated in column p on Attachment 3 to IITA Exhibit 2 on Rehearing. Except for Tonica, the column m amounts for each of the telecommunications carriers listed on Schedule 2.07 agree with the amounts in column p on the IITA's Attachment 3 after the IITA's column p amounts are rounded to the nearest dollar. As I discuss earlier, there

<sup>&</sup>lt;sup>8</sup> See column d of Attachment 5 to IITA Exhibit 2 on Rehearing and column c of Attachment 3 to IITA Exhibit 2 on Rehearing.

<sup>&</sup>lt;sup>9</sup> See column h of Attachment 5 to IITA Exhibit 2 on Rehearing and column d of Attachment 3 to IITA Exhibit 2 on Rehearing.

is a disagreement among IITA's attachments on the number of business access lines for Tonica. The IITA's Attachments 3 and 4 show 89 business access lines for Tonica in column d; the IITA's Attachment 5 shows 126 business access lines for Tonica on line 36 in column h. The \$706 difference is attributable to the 37 additional access lines listed in Attachment 5 to IITA Exhibit 2 on Rehearing.<sup>10</sup>

Q. Please describe Schedule 2.08, entitled "IUSF with a \$22.23 Affordable Rate and a Percentage of Lines Subsidized."

282

283

284

285

- Α. Schedule 2.08 presents IUSF amounts for an affordable rate of \$22.23 with the 289 290 two subsidization methodologies previously described. Column b lists the amount of IUSF support with a \$22.23 affordable rate for each of the 291 telecommunications carriers; each column b amount is calculated on Schedule 292 2.07 in column m. Column i presents the amount of the IUSF with an affordable 293 rate of \$22.23 subsidizing only primary residential lines and single-line business 294 lines. Column I presents the amount of the IUSF with an affordable rate of 295 \$22.23 subsidizing primary residential lines, single-line business lines, and the 296 first line of multi-line businesses. 297
- 298 Q. Please describe Schedule 2.09, entitled "IUSF First-Year Phase-In with a \$22.23 Affordable Rate and All Lines Subsidized."

<sup>&</sup>lt;sup>10</sup> The following calculation support this difference: \$1.59 \* 37\* 12 = \$705.96. The \$1.59 business rate differential, on Schedule 2.07 in column g at line 36, multiplied by the 37 additional access lines included in the IITA's Attachment 5 multiplied by 12 months equals an annualized revenue differential of \$705.96.

300 A. Schedule 2.09 presents the amounts of IUSF support for the first year of a four-301 year phase-in of an affordable rate of \$22.23 with the subsidization of all lines. 302 Staff witness Staranczak testifies that four years is the appropriate length of a 303 phase-in period for an affordable rate of \$22.23. Schedule 2.09 is a two-page 304 schedule.

305

306

307

308

310

311

312

313

314

315

316

317

318

319

320

Page 2 of Schedule 2.09 calculates the first-year phase-in increases for monthly residential and business rates. Column b lists the residential rate for each of the telecommunications carriers as provided in column a of Attachment 3 to IITA Exhibit 2 on Rehearing. Column c presents the residential rate differential between the amount listed in column b and an affordable rate of \$22.23. Column d calculates the amount of the first year of the four-year phase-in of the residential increase using the criteria discussed by Staff witness Staranczak. If the amount in column c is greater than \$8.00, the amount in column d is the result of dividing column c by four. If the amount in column c is less than or equal to \$8.00 and more than or equal to \$2.00, the amount in column d is \$2.00. If the amount in column c is less than \$2.00 and more than zero, the amount in column d is the amount in column c. If the amount in column c is less than or equal to zero, the amount in column d is a zero amount. Column e lists the business rate for each of the telecommunications carriers as provided in column b of Attachment 3 to IITA Exhibit 2 on Rehearing. Column f presents the business rate differential between the amount listed in column e and an

affordable rate of \$22.23. Column g calculates the amount of the first year of the four-year phase-in of the business increase. Column g calculates this amount using the same criteria just described for column d.

The calculation of the amounts of IUSF support for the first year of a four-year phase-in of an affordable rate of \$22.23 with the subsidization of all lines continues on page 1 of Schedule 2.09. Column b lists the amount of the first year of the four-year phase-in of residential increase calculated on page 2 in column d. Column c lists the number of total residential access lines provided on Attachments 5 and 3 to IITA Exhibit 2 on Rehearing. Column e lists the amount of the first year of the four-year phase-in of the business increase calculated on page 2 in column g. Column f lists the number of total business access lines provided on Attachments 5 and 3 to IITA Exhibit 2 on Rehearing. Column k presents the amount of the IUSF for the first-year phase-in with an affordable rate of \$22.23 and with the subsidization of all lines; the amount in column k is the result from the subtraction of column i from column j.

Q. Please describe Schedule 2.10, entitled "IUSF First-Year Phase-In with a \$22.23 Affordable Rate and a Percentage of Lines Subsidized."

<sup>&</sup>lt;sup>11</sup> See column d of Attachment 5 to IITA Exhibit 2 on Rehearing and column c of Attachment 3 to IITA Exhibit 2 on Rehearing.

<sup>&</sup>lt;sup>12</sup> See column h of Attachment 5 to IITA Exhibit 2 on Rehearing and column d of Attachment 3 to IITA Exhibit 2 on Rehearing.

338 Α. Schedule 2.10 presents IUSF amounts for the first year of a four-year phase-in of an affordable rate of \$22.23 with the two subsidization methodologies previously 339 described. Column b lists the amount of IUSF for the first year of a four-year 340 phase-in of a \$22.23 affordable rate for each of the telecommunications carriers; 341 each column b amount is calculated on page 1 of Schedule 2.09 in column k. 342 Column i presents the amount of the IUSF for the first year of a four-year phase-343 in of an affordable rate of \$22.23 subsidizing only primary residential lines and 344 single-line business lines. Column I presents the amount of the IUSF for the first 345 year of a four-year phase-in of an affordable rate of \$22.23 subsidizing primary 346 residential lines, single-line business lines, and the first line of multi-line 347 businesses. 348

### Affordable Rates of \$24.00 and \$27.00—Schedules 2.11 through 2.14

- Q. Are Schedules 2.11 through 2.14 similar to the schedules that you have previously described?
- 352 A. Yes. Schedules 2.11 through 2.14 are very similar to Schedules 2.03 through 2.06, respectively, and to Schedules 2.07 through 2.10, respectively. Schedules 2.03 through 2.06 provide IUSF amounts for an affordable rate of \$20.39; Schedules 2.07 through 2.10 provide IUSF amounts for an affordable rate of \$22.23; Schedules 2.11 through 2.14 provide IUSF amounts for a residential

- affordable rate of \$24.00 and a business affordable rate of \$27.00. My
  discussion of Schedules 2.11 through 2.14 addresses their differences from
  Schedules 2.03 through 2.06 and from Schedules 2.07 through 2.10.
- Q. Please describe Schedule 2.11, entitled "IUSF with \$24/\$27 Affordable Rates and All Lines Subsidized."
- 362 Α. Schedule 2.11 presents the amounts of IUSF support based upon affordable rates of \$24.00 for residential lines and \$27.00 for business lines with the 363 subsidization of all lines. Column c presents the residential rate differential 364 between the amount listed in column b and an affordable rate of \$24.00. Column 365 g presents the business rate differential between the amount listed in column f 366 and an affordable rate of \$27.00. Column m presents the amount of the IUSF 367 with affordable rate of \$24.00 for residential lines and \$27.00 for business lines 368 369 and with the subsidization of all lines; the amount in column m is the result from the subtraction of column k from column I. 370
- Q. Please describe Schedule 2.12, entitled "IUSF with \$24/\$27 Affordable Rates and a Percentage of Lines Subsidized."
- 373 A. Schedule 2.12 presents IUSF amounts for affordable rates of \$24.00 for residential lines and \$27.00 for business lines with the two subsidization methodologies previously described. Column b lists the amount of IUSF support

with the \$24.00 and \$27.00 affordable rates for each of the telecommunications carriers; each column b amount is calculated on Schedule 2.11 in column m. Column i presents the amount of the IUSF with the affordable rates of \$24.00 and \$27.00 subsidizing only primary residential lines and single-line business lines. Column I presents the amount of the IUSF with the affordable rates of \$24.00 and \$27.00 subsidizing primary residential lines, single-line business lines, and the first line of multi-line businesses.

Q. Please describe Schedule 2.13, entitled "IUSF First-Year Phase-In with \$24/\$27

Affordable Rates and All Lines Subsidized."

A. Schedule 2.13 presents the amounts of IUSF support for the first year of a five-year phase-in of affordable rates of \$24.00 for residential lines and \$27.00 for business lines with the subsidization of all lines. Staff witness Staranczak testifies that five years is the appropriate length of a phase-in period for an affordable rates of \$24.00 and \$27.00. Schedule 2.13 is a two-page schedule.

Page 2 of Schedule 2.13 calculates the first-year phase-in increases for monthly residential and business rates. Column c presents the residential rate differential between the amount listed in column b and an affordable rate of \$24.00. Column d calculates the amount of the first year of the five-year phase-in of the residential increase using the criteria discussed by Staff witness Staranczak. If the amount in column c is greater than \$10.00, the amount in column d is the

result of dividing column c by five. If the amount in column c is less than or equal to \$10.00 and more than or equal to \$2.00, the amount in column d is \$2.00. If the amount in column c is less than \$2.00 and more than zero, the amount in column d is the amount in column c. If the amount in column c is less than or equal to zero, the amount in column d is a zero amount. Column f presents the business rate differential between the amount listed in column e and an affordable rate of \$27.00. Column g calculates the amount of the first year of the five-year phase-in of the business increase. Column g calculates this amount using the same criteria just described for column d.

The calculation of the amounts of IUSF support for the first year of a five-year phase-in of affordable rates of \$24.00 for residential lines and \$27.00 for business lines with the subsidization of all lines continues on page 1 of Schedule 2.13. Column b lists the amount of the first year of the five-year phase-in of the residential increase calculated on page 2 in column d. Column e lists the amount of the first year of the five-year phase-in of the business increase calculated on page 2 in column g. Column k presents the amount of the IUSF for the first-year phase-in with affordable rate of \$24.00 and \$27.00 and with the subsidization of all lines; the amount in column k is the result from the subtraction of column i from column j.

- Q. Please describe Schedule 2.14, entitled "IUSF First-Year Phase-In with \$24/\$27
   Affordable Rates and a Percentage of Lines Subsidized."
- Schedule 2.14 presents IUSF amounts for the first year of a five-year phase-in of 417 Α. affordable rates of \$24.00 for residential lines and \$27.00 for business lines with 418 the two subsidization methodologies previously described. Column b lists the 419 amount of IUSF for the first year of a five-year phase-in of affordable rates of 420 \$24.00 and \$27.00 for each of the telecommunications carriers; each column b 421 amount is calculated on page 1 of Schedule 2.13 in column k. Column i presents 422 the amount of the IUSF for the first year of a five-year phase-in of affordable 423 rates of \$24.00 and \$27.00 subsidizing only primary residential lines and single-424 line business lines. Column I presents the amount of the IUSF for the first year of 425 a five-year phase-in of affordable rates of \$24.00 and \$27.00 subsidizing primary 426 residential lines, single-line business lines, and the first line of multi-line 427 businesses. 428

#### CONCLUSION

- 430 Q. Do you have a recommendation for the Commission?
- 431 A. Yes. When the Commission enters its Order on Rehearing in this proceeding, 432 the Order on Rehearing should include a schedule showing the approved IUSF

## Docket Nos. 00-0233 and 00-0335 (Consolidated) ICC Staff Exhibit 2.0 on Rehearing

- amounts for each of the 39 telecommunications carriers that sought IUSF support.
- 435 Q. Does this conclude your Direct Testimony on Rehearing?
- 436 A. Yes, it does.

### **Summary of Total Fund Amounts for the IUSF**

_	(a)		(b)	(c)
Line #	Total Fund Amount Description	IL	JSF Amount	Source
1	Affordable Rate of \$20.39			
2	IUSF with All Lines Subsidized	\$	9,858,975	Schedule 2.03, column m, line 40
3	IUSF with Primary Residential Lines and Single-Line Business Lines Subsidized	\$	8,419,470	Schedule 2.04, column i, line 40
4	IUSF with Primary Residential Lines, Single-Line Business Lines, and First Lines for Multi-Line Businesses Subsidized	\$	8,695,057	Schedule 2.04, column I, line 40
5	IUSF First-Year Phase-In with All Lines Subsidized	\$	10,565,245	Schedule 2.05, page 1, column k, line 40
6	IUSF First-Year Phase-In with Primary Residential Lines and Single-Line Business Lines Subsidized	\$	9,008,141	Schedule 2.06, column i, line 40
7	IUSF First-Year Phase-In with Primary Residential Lines, Single-Line Business Lines, and First Lines for Multi-Line Businesses Subsidized	\$	9,307,779	Schedule 2.06, column I, line 40
8	Affordable Rate of \$22.23
